

2020 Health, Safety & Security Policy

Site Work Consulting Limited is responsible for establishing a policy, to monitor and review overall HSS performance and is committed to the value of putting safety first.

We will:

- Deploy the best leadership & Management structure required to deliver this policy and to ensure a continuous chain of responsibility and accountability.
- Identify and control the HSSE risks associated from operational activities.
- Implement systems for the management of HSSE, ensuring they are communicated and maintained.
- Comply with the applicable HSSE legislative & industry requirements.
- Establish and monitor clear HSSE performance objectives that include both leading and improvement indicators.
- Deploy robust processes for the investigation of incidents & capture lessons learned to prevent similar events from occurring.
- Monitor & verify our performance.
- Implement effective processes for workforce consultation and engage on all levels in relation to HSSE issues.
- Ensure that personnel are trained and competent to carry out their work activities.
- Consult with our associates and customers to promote continuous, self-learning HSSE performance.
- Work with our supply chain & partners to deliver a high standard of HSSE performance.

“We take our responsibility seriously to establish & maintain the highest standards of Health & safety performance.

We are committed to the value of ‘doing things right’ and putting safety first.”

Tracey Vasko – Director
